

THIJS ERVEN

FULL-STACK DEVELOPER | FRONT-END ENGINEER | UI/UX DESIGNER

Landgraaf, Limburg, Netherlands | thijserven@gmail.com | linkedin.com/in/thijserven | github.com/thijserven | thijs.erven.dev

PROFESSIONAL SUMMARY

Full-stack developer and UI/UX designer with hands-on experience building modern web applications, cloud-backed services, and developer-focused tooling. Strongest in TypeScript, JavaScript, React, Vue, Next.js, Node.js, GraphQL, PostgreSQL, and AWS-based infrastructure. Combines product-minded front-end engineering with back-end and DevOps capabilities, including API design, Terraform, Docker, and Cloudflare. Known for clean, maintainable code, thoughtful user experiences, and practical technical problem solving.

CORE SKILLS

Front End: React, Vue.js, Next.js, Nuxt, Tailwind CSS, responsive design, accessibility, UI/UX

Back End & APIs: Node.js, Hono, REST, GraphQL, authentication, validation, internationalization

Data: PostgreSQL, Redis, relational data modelling, caching

Cloud & DevOps: AWS, Terraform, Docker, Cloudflare Workers, CI/CD, Git, npm

Engineering: System design, testing, code review, performance, debugging, technical documentation

PROFESSIONAL EXPERIENCES

Full-Stack Developer / UI/UX Designer | SpecifAI Parking

Netherlands | June 2024 – Present

- Progressed from front-end development into a broader full-stack and UI/UX role, building web-based products for intelligent parking workflows.
- Develop maintainable user interfaces and reusable components with modern TypeScript-based frameworks, with attention to usability, responsiveness, and accessibility.
- Design and integrate APIs, application data flows, and cloud services to support reliable full-stack features.
- Contribute to technical decisions involving application architecture, infrastructure as code, deployment, and developer experience.
- Work closely with stakeholders to translate product requirements into practical, user-focused solutions.

Front-end Developer / UI/UX Designer | Streamlined

Netherlands | April 2023 – June 2024

- Developed and maintained user-focused web applications as part of a multidisciplinary development team.
- Translated functional and design requirements into responsive, accessible, and reusable interface components.
- Contributed across the development lifecycle, from UI/UX implementation and frontend development to application integration and maintenance.
- Collaborated with developers, designers, and other stakeholders to deliver reliable digital solutions.
- Improved existing functionality by resolving defects, refining user experiences, and keeping the codebase maintainable.
- Applied modern web-development practices with a focus on usability, code quality, and consistent design.

EDUCATION

HBO ICT & Media Design | Fontys University of Applied Sciences

2023 | Netherlands

- Collaborated in multidisciplinary project teams using iterative and user-centered development methods.
- Applied frontend technologies to translate concepts and visual designs into functional interfaces.
- Conducted user research and used UX principles to improve usability and accessibility.
- Developed digital concepts based on user needs, business objectives, and strategic requirements.
